- ReactJS
- AWS Services
- Serverless framework
- Node.js
- MySQL, MariaDB, PostgreSQL
- Git, JIRA
- Confluence

LANGUAGES

- French (native)
- English
- Spanish

PROFILE

At 23, after graduating my master in computer science engineering, I decided to run for an entrepreneurship adventure. I learnt a lot during these years with a blazing fast technology stack. I used serverless technologies and cloud services to accelerate our business needs keeping infrastructure cost low. I'm interested in web development and product strategy.

EXPERIENCE

CO-FOUNDER & CTO

LUSEED | AUG 2016 - PRESENT

Building hardware & software solutions to help brands such as TOTAL, PMU, Docapost or Miliboo to engage audience in events.
